Commissioner Jane Henney
Docket No. 00P-1211/CP1
FDA Dockets Management
Branch (HFA-305)
5630 Fishers Lane, Room 1061
Rockville, MD 20852

Dear Commissioner Henney,

My husband, David, and I have used organic methods on our property and have consumed organic products (produce, meats, dairy, prepared products) for many years now. We have chosen to eliminate chemicals and hormones from our food supply and environment as much as possible.

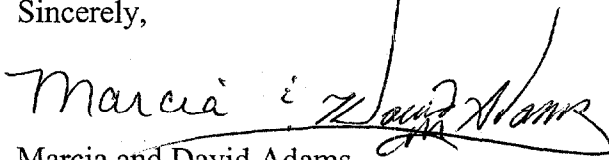

We are concerned about the rise of undisclosed genetically engineered foods. Both of us have chemical and food allergies and realize we could have reactions to some of these genetically engineered foods. As consumers, we should have the right to choose between genetically engineered and non-genetically engineered products.

We support:

- Mandatory labeling of all genetically modified foods
- The adoption of strict regulations for the health and safety testing of GMOs
- Requirements for comprehensive assessments of environmental risks associated with GMOs

Thank you for your attention to and support of this matter.

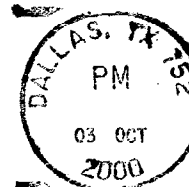

Sincerely,

Marcia and David Adams

00P-1211
